GLADIOLUS 1952

For The Best In Glads

GLADRIDGE GARDENS

R. M. Fuller

PERRY, OHIO

NOTICE

Please note that we have moved and our new address is now Perry, Ohio. Our location is now 3 miles west of Madison on Middle Ridge Road, which runs parallel between Rt. 20 and Rt. 84. Your increased demand for our bulbs made it necessary for us to move. Our storage capacity is more than doubled in our new location and we now have 100 tillable acres of the finest nursery soil in Lake County to rotate our bulb crop on.

Again this year we are pleased to offer a new line of evergreens and shrubs in small sizes. We will endeavor to provide the same service and quality as we have in the past with our glads. Bulbs will be sent separately at time requested, nursery stock at proper planting time.

Directions For Ordering

Please do not split quantities as listed. As an example where a variety is listed at 2 for 12c, 3 for 15c, etc., do not order 1 at a lower price. Ten bulbs at 8 times the single price. 25 bulbs at 18 times the single price.

All retail orders amounting to \$3.00 or over will be sent prepaid to any point in U. S. On orders of less than \$3.00, please add 35c extra for postage and packing. Each order must be accompanied by remittance in full, or a 25% deposit, the balance C.O.D.

If you wish to order part from the retail list and part from the quantity list, we will send the order transportation collect and will include extras or over-count to make up for the transportation on the retail items.

All orders received subject to prior sale. We recommend that you order early to avoid disappointment in case we run out of a variety.

We add extras to each order, the amount and varieties vary with the size of the order. It will help us if you will suggest varieties you would like to try.

Cultural directions will be sent free with your order.

Quantity Prices

Please refer to Quantity Prices in back part of catalog. We grew about 35 acres of glads this year and dug several million bulbs. On large lots of bulbs and bulblets we will be pleased to quote prices.

Bulb Sizes

We offer bulbs in three sizes: Large size is from 1¼ inches in diameter, medium size from ¾ to 1¼" in diameter, small size ¾ to ¾ inches in diameter. For top performance the large size bulb is best. Medium size bulbs will give good blooms, but will be smaller and bloom a little later in the season. Small size bulbs will generally bloom, but spikes will be noticeably smaller. They will make large bulbs for next year.

Bulblets

Bulblets are hard shelled cormels which are found at base of bulb when dug. They are recommended to experienced growers who want to get an inexpensive start of a variety, often they are difficult to germinate so we do not guarantee them to grow. Packages of bulblets will run from 50 upward.

(No bulblet orders accepted after April 1st)

GUARANTEE

We make every effort to send out stock of the highest quality, true to name. If errors should occur we will endeavor to make satisfactory adjustment. Under no circumstances will we be liable for more than purchase price or to replace the stock. As the planting and care of stock sold by us is beyond our control, we cannot be in any way responsible for the results after planting.

Key to Descriptions

First is the name of the variety, then in parenthesis the size and color class figures (see Classification Key below).

Following this is the name of the originator and the year in which the variety was first available to American purchasers.

The figures in the last parenthesis denote the number of growing days required from planting to date of blooming for large bulbs.

Because of soil conditions, climate, etc., this will vary considerably. However, the blooming dates will give some idea of what to expect from a variety.

Classification Key

The number after the name of the variety denotes the classification number as they are classified in our gladiolus shows at the present time. They are classified in five sizes as follows:

Miniature Glads	100—Florets under 2½"
Small Glads	200—2½" through 3¼"
Medium Glads	300—3¼" through 4¾"
Large Glads	400—4½" through 5¾"
Giant Glads	500—5½" or larger

For instance Abu Hassan is the first variety described, whose number is 378. The 300 means it has a floret size from 3¼" through 4¾" and the 78 designates it as a deep violet. Hence the numbers right after the name tell the story of the size and color of the individual florets as grown under field conditions from large bulbs.

Color Classes

90 Any other color	

SELECTING VARIETIES

We believe each variety listed in our catalog is worthwhile and merits your consideration. You may or may not like a variety depending upon your personal tastes and the use you make of the flowers. Soil, climatic conditions, etc., will also cause varieties to vary in performance. This may make it necessary to try and discard varieties not suited to your conditions.

Cutflower growers selling blooms to florists need to grow a large proportion of whites and pinks. Lavender, yellow, and red are colors that follow in demand. The florists usually do not care for too many of the dark colors. If you are growing blooms for roadside stands or home decorations the darker colors such as blue and smokies sell well.

Price is not necessarily an indication of the merits of a variety. Newer kinds must be higher in price because of scarcity of stock. We do advise cutflower growers to get a start in some of the newer kinds such as Evangeline. While the price may be too high to make out on cutflowers in the first year or two, your original investment will pay handsome dividends by enabling you to work up a stock ahead of your competitor and will pay off in premium prices for blooms over a period of years.

We are listing some recommendations to help you:

EARLY VARIETIES — Abu Hassan, Adoration, Astrid, Blue Beauty, Friendship, Gelber Herald, Gene, Gold Dust, Heart O' Gold, Huntress, Invictus, June Day, June Rose, Margaret Wood, Mt. Index, Myrna Fay, Radiance, Red Cherry, Rhett Butler, Rose Charm, Salman's Glory, Skyway, Snow Princess, Spun Gold, Truelove, Wedgwood.

Tried and Proven Cutflower Varieties

Astrid, Buckeye Bronze, Burma, Chamouny, Corona, Dieppe, Elizabeth the Queen, Florence Nightingale, Friendship, Gaylore, Gelber Herald, Huntress, Jeanie, Jules Amott, Lady Jane, Lavender Prince, Leading Lady, October Sunshine, Orange Gold, Pandora, Picardy, Red Charm, Silver Wings, Snow Princess, Spic & Span, Tivoli, Truelove, Yangtze.

Newer Promising Commercial Varieties

Astrid, Betty Duncan, Birch Red, Boise Belle, Chief Pontiac, Columbia, Connecticut Yankee, Dolly Varden, Evangeline, Francesca, Gail, Gold, Gwen, June Rose, Ladrone, Northern Lights, Parthiena, Patrol, Red Wing, Skyway, Sun Spot, Trails End, White Goddess.

BEST EXHIBITION VARIETIES — Black Cherry, Boise Belle, Burma, Clarence D. Fortnam, Conn. Yankee, Cotillion, Daisy Mae, Dieppe, Eliza. the Queen, Evangeline, Firebrand, Gail, Kelsey, Kittyhawk, La Valle, Leading Lady, Mid-America, Mighty Monarch, Noweta Rose, Parthiena, Patrol, Phantom Beauty, Polynesie, Red Charm, Red Wing, Silver Wings, Spic & Span, Spindrift, Strathnaver, Sun Spot, Titan, Tivoli, White Challenge, White Christmas, White Goddess.

RUFFLED VARIETIES — Aureole, Boise Belle, Burma, Connie G, Clarence D. Fortnam, Dieppe, Elizabeth the Queen, Evangeline, Friendship, Gene, Genghis Khan, Kathy Lee, Ruffled Night, Siboney, Spic & Span, Wedgwood, White Christmas, White Goddess.

RECOMMENDED LIST FOR BEGINNERS — Abu Hassan, Black Opal, Buckeye Bronze, Burma, Chamouny, Corona, Dieppe, Elizabeth the Queen, Jeanie, Lady Jane, Lavender Prince, Leading Lady, Orange Gold, Picardy, R. B., Red Charm, Snow Princess, Spotlight.

MIXTURES

We recommend these mixtures as just the thing for those who do not care to keep the names of varieties separate, but do want a nice garden of glads. Our mixtures are hand made of a well balanced selection of colors. If named these bulbs would cost several times the price asked here. The exhibition mixture contains many of the higher priced varieties. All collections postpaid.

Rainbow Mixture		Exhibition Mixture	
Large Bulbs	Medium Bulbs	Large Bulbs	Medium Bulbs
50 - \$ 3.00	50 - \$ 2.25	50 - \$ 5.50	50 - \$ 4.00
100 - \$ 5.50	100 - \$ 3.75	100 - \$10.00	100 - \$ 7.00

NEW INTRODUCTIONS for 1952

RUTH LORENE (410) Fuller '52 (80)

A sport found in Spotlight by my wife and named for her. It is a clear unmarked medium deep yellow, the color appearing slightly lighter than Spotlight due to the absence of any red in the throat. We have found a few reverts back to Spotlight and spikes in which only a part of the blotch reverted back.

Florets open wider and it holds more open than Spotlight. Stamens occasionally change over into small petals in floret center. This trait is more pronounced under exhibition culture. All other habits including health, vigor and propagation appear the same as Spotlight. Like Spotlight it should find wide acceptance as an outstanding outflower.

Tall spikes at Valleevue Test Gardens had 10 open on 22 bud spikes and rated 89AA.

It was a seedling class first at the Ohio (Worthington) and West Virginia show. A spike grown by Tom Manley with 10 open rated A— and topped the 400 seedling class at The Binghamton International Show.

Bulbs \$2.00 each for any size; unit of 5 bulblets for \$2.00

MESA MIST (486) Hartman '52 (85)

A clear smoky lavender grey sport of pastel. Its beautiful color will no doubt make it one of the most popular smokies. Attracted a lot of favorable attention and won first award in its seedling class at the International Show at East Lansing.

Bulbs \$2.00 each for any size; unit of 10 bulblets for \$2.00

DESCRIPTIVE LIST

(L means large; M means medium; S means small; Blbts. means bulblets.)

ABU HASSAN (378) Holland '47 (77)

A deep rich violet blue glad. Very much like Pelegrina in color but an improvement on that variety in that it does not crook. A few spikes of this in a mixed bouquet of glads adds much to its beauty. Very popular.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 25c

ADORATION (466) Klein '48 (75)

An early pink orchid with a creamy throat. Adoration has a lovely pastel color that blends well with other flowers. Bulblets grow extremely well and make mostly large bulbs.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

ALL GLORY (421) Toon '46 (75)

A novel color of deep tangerine orange with royal purple throat blotch overlaid with cerise with distinctive cerise rib down center of lower petals. Holds about 8 nicely ruffled 5-inch florets open.

L 12c; M 2-15c; S 4-15c; Blbts. pkg. 25c

A. L. STEPHEN (433) Windsor '42 (85)

Orange pink with a red throat blotch. Opens 6 good sized blooms on a tall spike. One of the better blotched varieties. Very much in demand last year.

L 15c; M 10c; S 3-15c; Blbts. 10-20c

ASTRID (560) Jack '46 (77)

Clear medium rose that will open about 6 ruffled blooms. A bright attractive shade that everyone admires. Each year this continues to make a more favorable impression on us and we feel sure will be grown in quantity as a cutflower when better known.

L 15c; M 10c; S 3-15c; Blbts. 10-15c; 100-\$1.00

ATHENE (400) Kuhn '49 (75)

Outstanding white shading to cream throat. Will hold 10 open on 54 inch spike with 20 to 22 buds. Has been enthusiastically accepted by growers everywhere. Looks like a double-barreled hit for both show and commercial use.

L \$1.50; M \$1.00; S 50c; Blbts. 2-30c

AUREOLE (412) Pruitt '48 (80)

A clear ruffled fairly dark yellow. Holds about 6 open. Good propagator. Fine cutflower prospects. You would admire the floret shape and ruffling of Aureole in any other color but it is especially well come in a yellow.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 30c

BEAUTY'S BLUSH (440) Fischer '47 (85)

As the name suggests it is a blush white with a sparkling pink undertone. A seedling of Margaret Beaton it seems to have inherited the vigorous tall growth of that variety. It will open 7 flat well attached florets. A planting of this that bloomed in the cool fall weather this year gave us the beautiful sparkling color that gave this variety its name.

L 12c; M 2-15c; S 2-10c; Blbts. pkg. 25c

BENJAMIN BRITTEN (470) K & M '49 (80)

A new shade of deep lavender shading to purple. Color somewhat like Lav. Prince, but with rounder more beautiful florets. Received top rating at the 1949 West Virginia Test Garden.

L 20c; M 12c; S 2-12c; Blbts. 10-20c; 100-\$1.00

BETTY'S CHOICE (362) Harris '45 (90)

A ruffled rosy mauve with cream blotch. We are particularly enthusiastic about the color value of this variety. Like Coutt's Orchid in color, but superior cutflower traits. Wish it would propagate better. Recommended.

L 12c; M 2-15c; S 2-10c; Blbts. pkg. 30c

BETTY DUNCAN (422) Benedict '49 (82)

Lovely orange blending to a clear golden throat. Grows tall with 7 open florets. Bulblets grow and germinate well, most of ours bloomed this year. Looks like a good commercial orange.

L 25c; M 15c; S 10c; Blbts. 10-15c; 100-\$1.00

BIG TOP (541) Rich '42 (75)

One of the largest varieties we grow. Testing several varieties for earliness this was surprisingly early for such a large glad. Light pink with small carmen feather.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

BIRCH RED (552) Rich '45 (90)

Smooth pure sparkling medium red. Opens 7 on a 19 bud flower head. Wins frequently in its class. Its tall consistent vigorous growth and beautiful color will excite any cutflower grower. Recommended.

L 25c; M 15c; S 10c; Blbts. 10-15c; 100-\$1.00

BLACK CHERRY (554) Rich '48 (85)

A giant black-red that will open up to 9 6-inch blooms on a 24-inch flowerhead. Has won numerous awards and looks like the best in this class.

L 75c; M 50c; S 25c; Blbts. 3-20c; 100-\$4.00

BLACK OPAL (354) Errey '36 (92)

Exhibition dark red. Makes an impressive spike with up to 8 blooms open. The standard dark red.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

BLUE BEAUTY (476) Pfitzer '36 (75)

Light violet blue, vigorous grower. The best medium blue on the market.

L 12c; M 2-15c; S 4-15c; Blbts. pkg. 25c

BLUE LAGOON (478) Snyder '46 (70)

Medium blue with slightly lighter throat. Good propagator and grows tall.

L 25c; M 15c; S 2-15c; Blbts. 20-25c; 100-\$1.00

BOISE BELLE (343) Roberts '48 (100)

Very ruffled blooms holding 10 open. A stunning combination of yellow and pink. Good grower and propagator. Planted early this should win easily on the show table. Cut flower possibilities excellent. Recommended.

L 25c; M 15c; S 10c; Blbts. 10-20c; 100-\$1.50

BOULOGNE (462) Salman '47 (85)

A new valuable color of reddish rose or wine red. Makes tall heavy plants, prolific and an easy grower even from small bulbs. In addition to all this it will hold 8 well-placed blooms open making it an important addition to our list of varieties.

L 12c; M 2-12c; S 10-25c; Blbts. pkg. 30c

BRIER (462) Palmer '51 (90)

An attractive shade of rose-lavender with a small creamy lip mark. Makes a spike of medium height with 8 open and 20 buds. Looks like an attractive cutflower.

L \$2.00; M \$1.50; S \$1.00; Blbts. 2-30c; 10-\$1.20

BUCKEYE BRONZE (490) Wilson '40 (90)

Popular smoky bronze with a commercial future. Good fall color that blends especially well with mums.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

BURMA (562) Palmer '43 (88)

A very beautiful deep rose. Opens about 8 huge wide open heavily ruffled blooms with all the buds showing color. Don't miss this one.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

CHAMOONY (360) Baerman '38 (85)

Light cerise rose with silver line on the edge of petals. Outstanding except for some short flower heads. This is extremely popular with florists. Well worth growing for unusual beautiful color.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

CHERBOURG (462) Salman '47 (78)

Vivid deep purplish carmine rose. Opens 7 nicely arranged florets on a tall straight spike.

L 15c; M 10c; S 2-10c; Blbts. pkg. 30c

CHERRY JAM (543) Zimmer '43 (80)

The deep salmon color of this with a striking cherry blotch on lower petals attracts a lot of attention. Holds about 8 large ruffled blooms open on a medium height plant.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

CHIEF PONTIAC (524) Snyder '48 (85)

Clear deep orange scarlet shading deeper in throat. Tall, strong, vigorous grower that opens 6 6½-inch ruffled blooms.

L 75c; M 50c; S 35c; Blbts. 10-30c; 100-\$2.00

CLARENCE D. FORTNAM (440) Kadel '50 (90)

A very beautiful imposing spike of ruffled and fluted florets—blush pink in color. Grows 56 inch tall and will open up to 10 florets on a 24 inch flowerhead. Bulb production and germination excellent. Its generous florescence and perfect form make it a star performer on the show bench. Was the Grand Champion bloom at the 1950 Eastern International Show. Has a bright future as a cutflower.

L \$3.00; M \$2.00; S \$1.50; Blbts. 30c each; 10-\$2.40

COLUMBIA (407) Roberts '51 (80)

Described as an improved Corona. Like it in color except for a more pronounced edging of rose. While Columbia is smaller than Corona it is thought to be more resistant to disease.

L \$3.00; M \$2.50; S \$2.00; Blbts. 35c each; 10-\$2.50

CONNECTICUT YANKEE (441) Schnetsky '44 (90)

A sensation on the show bench as it will open a double row of 8-10 florets at once. Attractive light pink with an orange-scarlet throat blotch. Rather slow propagation may limit its commercial value.

L 15c; M 10c; S 3-15c; Blbts. 10-15c; 100-\$1.00

CONNIE G. (506) Woods '48 (80)

Without a doubt one of the most beautiful creams available. Holds 8 large ruffled deep cream blooms open. Unfortunately bulbs are subject to "water mark trouble". This does not necessarily affect the performance of the bulb, but makes it look like thrip had eaten on bulb at husk lines.

L 60c; M 40c; S 25c; Blbts. 10-50c; 100-\$4.00

CONVOY (570) Palmer '42 (85)

A lovely purple color on a nice spike, opening 5 or 6 round recurved blooms. Very popular.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

CORDOVA (432) Palmer '49 (78)

One of the best of the new early varieties, a beautiful rose-salmon that will open up to 8 or 9 florets on a tall spike.

L 50c; M 35c; S 25c; Blbts. 4-20c; 10-40c

CORONA (560) Palmer '40 (80)

Very light creamy pink encircled with rose picotee edge. Good show record and splendid cutflower traits. Runaway propagator. Very popular and one we recommend highly.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

COTILLION (542) Butt '48 (82)

Deep rose pink with a creamy yellow throat. Excellent show glad as it will open up to 10 large florets perfectly placed on a tall spike.

L 25c; M 15c; S 2-15c; Blbts. 15-25c

COVER GIRL (542) LaSalle '45 (90)

Makes a very tall spike with a large number of medium pink blooms open. Vigorous grower and rapid propagator.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

CYNTHIA (410) Graff '49 (75)

An early yellow that opens up to 7 recurved florets. The color is a beautiful clear medium yellow. The all around good qualities of this variety will no doubt give the other early yellows plenty of competition.

L \$1.00; M 75c; S 50c; Blbts. 2-25c; 10-\$1.00

DAISY MAE (521) Lins '45 (90)

Color salmon or orange pink with reddish blotch. We are not too keen on the color of this variety but must admire its exceptionally strong and dependable growing habits. Fast propagator.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 25c

DESTINY (536) Butt '48 (85)

Scarlet red with small white bars on lower petals. Makes a fine tall spike. A real blazing scarlet red, that stands out in any planting.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

DIEPPE (432) Hassall '45 (85)

Deep salmon red with deeper blotch. A different, attractive color hard to classify. One of the top introductions of the last few years. Excellent habits and color make it a cutflower variety of real merit. Highly recommended.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 25c

DOLLY VARDEN (532) Harris '50 (85)

This is good news! An improved Aladdin. Many of you remember Aladdin—a grand glad but a short grower. How often we have said or heard others say what a glad Aladdin would be if it only would grow a foot taller. Dolly Varden is very much like Aladdin in color, generous floescence and makeup but unlike Aladdin grows tall. A real eye-opener dressed in salmon with a white throat.

L \$1.25; M \$1.00; S 75c; Blbts. 4-25c; 20-\$1.00; 100-\$3.50

DONNA (416) Pruitt '40 (95)

Nicely ruffled golden buff. A tall husky grower. Makes a good cut-flower. Still rates highly among the new modern ruffled beauties.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 25c

DUSTY MILLER (486) Elliott '45 (85)

Bright and lively smoky old rose, mildly blotched red with cream penciling. Very popular in Canada and deserves more popularity here as it combines a very pleasing color on a tall spike with 8 open florets.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

ELIZABETH THE QUEEN (566) White '41 (86)

Beautiful deep lavender with darker lines in throat. Beautifully ruffled and holding 7 to 8 blooms open. Needs plenty of water to be at its best. Cutflower growers are now buying this by the thousands. One of the most popular items in our list.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

ELMER'S ROSE (460) Fischer '51 (85)

Elmer Gove fell in love with this glad in Carl Fischer's seedling patch, hence its name. It is a heavily ruffled deep rose that holds up to 8 open with 22 buds. A truly beautiful variety that we think has a great exhibition and cutflower future.

L \$1.00; M 75c; S 50c; Blbts. 2-30c; 10-\$1.00

EVANGELINE (540) Palmer '48 (92)

A beautiful light rose with creamy yellow throat. Widely heralded as the best glad originated by Palmer since Picardy. Has won several championships. Holds 10 open on a 30-inch flower head with plant 5 ft. tall. Produces average amount of bulblets that grow exceptionally well. Blooms sometimes not placed too well.

L 30c; M 20c; S 2-25c; Blbts. 10-20c; 100-\$1.50

FIREBRAND (452) Butt '44 (85)

Medium red of glistening shade with white lines on lower petals. Opens up to 10 well-placed firmly-attached blooms. Good show variety and cutflower.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

FLORENCE NIGHTINGALE (400) Harris '47 (82)

New ruffled glistening white, about as white as Maid of Orleans. Considered one of the best whites to come out of Canada where it received the highest award in their Test Garden and number one rating in their 1948 symposium. Grows 68 inches tall, 21 buds, with 8 or more 5½ inch florets open. Good propagator. Many cutflower growers now rate this as the No. 1 white gladiolus.

L 15c; M 10c; S 3-15c; Blbts. 10-15c; 100-75c

FLYING FORTRESS (586) Wilson '43 (93)

Called the King of Smokies. Light smoky-gray with ability to hold 10 to 12 florets open. For floret size and number of open, this has them all beat. One spike is a bouquet in itself.

L 15c; M 10c; S 2-10c; Blbts. 10-15c; 100-\$1.00

FRANCESCA (566) Tobin '50 (92)

A lovely light lavender pink with a cream throat. Plants grow tall and open 6 beautifully ruffled florets on an 18 bud spike. A tall robust lavender is badly needed and this looks like it might fit the bill. Watch it grow in popularity.

L \$3.00; M \$2.00; S \$1.50; Blbts. 25c each; 10-\$2.00

FRASER (432) Harris '50 (90)

Heavily ruffled salmon with deeper throat. Husky grower with 8 open on a 22 bud spike. A promising commercial and exhibition variety.

L \$1.25; M \$1.00; S 75c; Blbts. 4-25c; 25-\$1.00

FRIENDSHIP (442) Fischer '49 (70)

Our choice for the top '49 introduction. Combines beauty, vigorous growth and earliness. Sparkling pure pink shading to cream with a large white throat. Opens up to 8 beautiful round ruffled blooms on a tall spike.

L 25c; M 15c; S 3-25c; Blbts. 20-35c; 100-75c

GAIL (466) Farrington '49 (85)

A light lavender shading to a deeper lavender at the petal edges with a light penciling of rose cerise on the lower petals. Spike formation and balance near perfection and reminds one of Colonial Maid, one of its parents. Commercial traits outstanding, and it is a better propagator than we had expected.

L \$1.00; M 75c; S 50c; Blbts. 3-25c; 10-65c

GAYLORE (432) Harris '44 (80)

A deep salmon pink with cream blotch. Tall strong uniform grower. Should be more widely grown as its cutflower habits are of the best.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 30c

GELBER HERALD (411) Pfitzer '47 (70)

Amber yellow with carmine throat lines. Opens 6-8 slightly ruffled blooms on a tall spike. Promises to be a good early commercial yellow.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 25c

GENE (410) Farrington '43 (75)

Gene was one of the pleasant surprises of 1949. Combines strong healthy growth, rapid propagation, and earliness with pure light yellow color. Florets are beautifully ruffled.

L 25c; M 20c; S 2-25c; Blbts. 15-25c; 100-\$2.00

GENERAL EISENHOWER (542) Salman '48 (85)

A medium light rose. Opens up to 8 giant blooms on just about the tallest plant of any variety we grow. Highly regarded by many growers as a cutflower.

L 12c; 2-15c; S 4-15c; Blbts. pkg. 25c

GENGHIS KHAN (442) Scheer '41 (80)

We have missed a good one in not growing or listing this before. Opens up to 6 ruffled waxy clear salmon pink florets. Sure to meet your approval.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 25c

GLAMIS (530) Palmer '40 (90)

Glamour queen of its class. Beautiful clear salmon rose with creamy lip and ruffled edges.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

GOLD DUST (412) Pfitzer '35 (70)

We find this early deep yellow a dependable and profitable cutflower.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

GOLD (412) Marshall '51 (78)

Here is exciting news! Yellows have long been a weak color in glads and Gold is a big step forward in the yellow class. It is hard to believe that this glad combines such outstanding qualities as vigor, health, height, floret size and substance with a rare beautiful deep yellow color, and ruffled wide open florets. In addition it is a fair to good propagator, opens well in water, does not crook, holds 7 open well attached florets, and it makes good sound bulbs. As a seedling of Orange Gold its only apparent weakness is a lack of stretch in the flowerhead. Gold has an excellent show record but its chief value we feel sure will be a cutflower.

L \$2.50; M \$1.75; S \$1.00; Blbts. 20c each; 10-\$1.50; 100-\$12.00

GOLD MEDAL (516) Beardmore '48 (80)

A giant buff yellow. Opens up to 6 ruffled florets. A fine show glad and a fanciers favorite.

L 25c; M 20c; S 15c; Blbts. 10-25c

GORGEOUS DEB (530) Wilson '48 (82)

Outstanding for its beauty and intense ruffling. A gorgeous color blend of light salmon with a bright yellow throat. A fancier's favorite that will do well on the show bench.

L \$1.00; M 70c; S 30c; Blbts. 10-40c; 100-\$3.00

GRACE DARLING (460) Harris '49 (75)

Very pleasing blend of light rose pink and white reminding one of apple blossoms. A tall grower opening 7-5 inch florets. Another good glad—adding to the excellent reputation of this hybridizer.

L 50c; M 35c; S 25c; Blbts. 6-25c; 100-\$4.00

GRAY DAWN (486) Both '43 (95)

A striking novel color of medium light lavender blue-gray with darker feathering on petals. To see it is to want it.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 25c

GRAY SUMMIT (486) Butt '50 (78)

A clean smooth gray with an equally clean creamy white throat. Unusually high color value for a glad in this classification. Vigorous healthy plants and bulbs. Rapid propagator and blooms well from small bulbs. Grows 62 inches tall, opens 8 on a 28 inch flowerhead with up to 24 buds. For those that want something different in a cutflower novelty and a ribbon winner on the show bench.

L 30c; M 20c; S 10c; Blbts. 10-25c; 100-\$1.50

GWEN (460) Pickell '49 (80)

Beautiful light rose somewhat like Betty's Choice and Trails End in color. Said to be fragrant with about half of garden visitors being able to detect scent. Outstanding with or without fragrance as it grows consistently tall with 7 open florets. One of its more valuable characteristics along with its appealing color is its earliness.

L \$1.00; M 75c; S 50c; Blbts. 2-25c; 10-80c

HAROLD K (536) Knight '49 (87)

A giant deep scarlet. It makes a tall plant with 6-7 well attached and placed 7 inch blooms. One of the few American introductions to receive an award in the Canadian Test Gardens.

L \$1.00; M 75c; S 50c; Blbts. 2-20c; 10-75c

HARRY HOPKINS (462) Holland '47 (78)

Attractive clean deep rose red with slight purplish shading. A very fine variety that performs well and will open 7 well placed blooms.

L 15c; M 10c; S 3-15c; Blbts. 10-15c; 100-\$1.00

HAVELOCK (370) Julyan '48 (85)

A very fine rich deep purple that has been badly overlooked. Consistently holds up to 8 or more open. Will be a heavy prize winner at the shows and a splendid cutter.

L 20c; M 15c; S 10c; Blbts. 10-20c; 100-\$1.50

HEART O' GOLD (401) Fischer '50 (65)

Clean cut white with large distinct yellow throat blotch. Said to be one of the first whites to bloom, which should be of interest to cut-flower growers.

L 50c; M 35c; S 25c; Blbts. 10-25c; 100-\$1.50

HEART'S DESIRE (540) Fiedler '48 (80)

Light creamy pink shading into white with a yellow throat with heavily ruffled florets. Opens 6 to 8 on a tall spike. A very attractive and useful glad for both show and commercial purposes.

L 30c; M 25c; S 15c; Blbts. 10-25c; 100-\$1.50

HIGH COMMAND (540) Barrett '43 (93)

Color shell pink. Holds up to 8 blooms open on a long flowerhead. Very strong powerful grower like Big Top and Ogarita. Looks like an excellent cutflower.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

HIGH FINANCE (580) Wilson '40 (95)

Smoky light orange-gray with cream throat blotch. Opens 9 ruffled blooms on a tall spike. We feel sure you will like this one.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

HIGH LIFE (376) K & M '46 (70)

Beautiful light blue with deeper throat. One of the best and most beautiful of the light blues.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 25c

HUNTRESS (466) Jack '45 (75)

Very promising early cutflower lavender. Opens 8 nicely placed and ruffled blooms on a spike of medium height.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 30c

INVICTUS (441) Pacific Bulb Co. '42 (70)

Color is white with pink glow and a vivid scarlet throat. Very early from large bulbs. Produces husky spikes for such an early glad. A money maker for the early cutflower grower.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

JEANIE (440) Pruitt '41 (85)

Hard to beat this for beautiful color. Large, clear, rich pink with creamy yellow throat. Tall, strong grower with willowy stem. One of the best.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

JULES AMOTT (452) Wilson '40 (90)

Clear, rich, velvety dragon red. Pleasing color. Makes long flower-heads with up to 10 open. Tall, healthy, and a fine cutflower red. Unlike most reds, does not have any Picardy blood.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

JUNE DAY (441) Roberts '46 (60)

June Day has the distinction of being the earliest pink to bloom. It is pink with deeper cherry blotches. It makes a tall spike with 6 open florets.

L 20c; M 2-25c; S 4-25c; Blbts. 10-20c; 100-\$1.50

JUNE ROSE (460) Marshall '50 (70)

Early deep rose that opens 5-6 blooms on a strong tall stem. It is a stronger grower and superior in many respects to such old standbys as Early Rose and Rose Delight. Recommended as a good investment for the early cutflower grower.

L \$1.00; M 60c; S 40c; Blbts. 4-25c; 100-\$5.00

KATHY LEE (410) Fairchild '47 (75)

Beautiful heavily ruffled light yellow. A sister seedling of Janet Lee. Opens 6 on a straight stem.

L 30c; M 20c; S 10c; Blbts. 10-30c; 100-\$1.50

KITTYHAWK (366) Both '48 (85)

A lovely lavender which will open 10 on a tall straight spike. Will make a very fine glad for the show table.

L 20c; M 15c; S 10c; Blbts. 10-15c; 100-\$1.00

KING DAVID (570) Carlson '51 (80)

Deep purple with velvet red throat with a picotee edge around the petals. It is beautifully ruffled, winged and fluted. Holds 10 large blooms open on a tall spike. Many consider it as a much improved King Lear. Excellent show record and rated as top 1951 introduction in 1951 NAGC Symposium.

L \$3.00; M \$2.50; S \$2.00; Blbts. 30c each; 10-\$2.50; 100-\$20.00

LADRONE (433) Palmer '47 (90)

Called an improved Beacon with the outer petal colored a rosy tone. Highest rating, Canadian Test Garden '45 and '46.

L 12c; M 2-15 c; S 4-15c; Blbts. pkg. 25c

LADY JANE (406) Lake '41 (85)

Clear cream with yellow lips giving an appearance of a light yellow. We have grown this in quantity as a cutflower for several years. Its superior color, handling and keeping qualities have made a hit with the florists. Excellent cutflower habits and one we recommend highly.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

LADY LUCK (440) Harris '44 (80)

Peaches and cream sport of Picardy. Well liked by everyone and should crash the charmed circle of topnotch commercials without any trouble.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

LADY MARION (466) White '48 (85)

A beautiful soft rose lavender that grows to a height of 65 inches with 10 open on a 33-inch flowerhead. Handles well and we think, has excellent cutflower possibilities. Fine show record including Champion Seedling at International Glad show.

L 25c; M 20c; S 15c; Blbts. 10-25c; 100-\$2.00

LANCASTER (470) Palmer '44 (85)

The best exhibition purple on the market, also tops for color. Will open 8 lightly waved and ruffled blooms on a tall straight spike. Rather slow propagator for us.

L 15c; M 10c; S 3-15c; Blbts. 10-15c; 100-\$1.00

LANCELOT (410) G. Snyder '49 (75)

Received a very good rating in the N.E.G.S. and N.A.G.C. trial gardens. A light yellow that opens 7-5" florets. Florets are well attached and placed.

L 50c; M 35c; S 25c; Blbts. 10-50c; 100-\$4.00

LA VALLE (507) Lines '49 (85)

Color a deep cream or ivory buff with orange red throat blotch. Grows tall with 8 open florets. With better distribution will be a heavy show winner.

L \$1.25; M \$1.00; S 75c; Blbts. 3-30c; 15-\$1.00; 100-\$5.00

LAVENDER PRINCE (466) LaSalle '44 (90)

Seedling of King Arthur. Makes a larger, taller spike and is a little lighter in color. Makes a dandy cutflower and we rate it highly. Proving to be one of the best cutflower lavenders on the market.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 25c

LEADING LADY (506) Johnston '42 (87)

Creamy white sport of Picardy. Identical to Picardy except in color. Can be cut in tight bud and opens perfectly. Few other whites can duplicate this. Frequent Grand Champ at the shows. One of the best glads introduced in the last few years. Be sure to try this one—it's tops.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

LIPSTICK (441) Balentine '41 (85)

A very nice light pink with a rosy red lipstick blotch. We call it "The Poor Man's Connecticut Yankee" as the color is similar, but the price lower. Very good propagator, and deserves to be more popular than it is.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

MANCHU (411) B. Palmer '45 (80)

A bright showy color of brilliant yellow overlaid with a pink flush and small vivid geranium red blotch. Very attractive color and a variety we feel sure you will like.

L 15c; M 10c; S 3-15c; Blbts. pkg. 30c

MAPLE LEAF (580) Pletcher '46 (80)

A huge smoky that has won major awards on the show table. The color of the maple leaves in the fall suggest its color.

L 20c; M 15c; S 10c; Blbts. 10-20c; 100-\$1.50

MARGARET WOOD (570) Marshall '47 (75)

A huge deep mauve purple. Its bloom size and color attract attention wherever shown. Florists ask for this one because of the beautiful floral work it makes. Has some irregular placement of florets. Will open large florets to tip when cut in tight bud. One of the most promising of the new ones.

L 12c; M 2-15c; S 5-15c; Blbts. 20-25c; 100-75c

MAZDA (416) Leffingwell '50 (80)

Color is a deep buff shading to a yellow throat. This variety is much like Patrol in color and can give it plenty of competition on the show bench. Superior to Patrol in that it is a more rapid propagator. Will open 10 with fine compact florescence.

L 35c; M 25c; S 20c; Blbts. 10-25c; 100-\$1.75

MAURRIE TREVAN (454) Both '46 (80)

Black red from Australia. Makes large florets on an exceptional long flowerhead. Should win easily in the shows.

L 35c; M 25c; S 20c; Blbts. 10-25c

MID-AMERICA (550) Knierim '47 (85)

A very strong growing brilliant light red. Grows 60 inches tall with 8 open on a long flowerhead. Has a good show record.

L 15c; M 10c; S 3-15c; Blbts. 20-15c; 100-50c

MIGHTY MONARCH (552) Butt '46 (88)

Like Mid-America a very strong grower, but in a deeper shade of red. Should do very well on the show table. Recommended.

L 20c; M 15c; S 3-25c; Blbts. 10-20c; 100-\$1.50

MINSTREL (566) Palmer '44 (85)

Opens 6 huge ruffled butterfly florets of lavender color. Rather slow propagator. Fine for show table.

L 25c; M 15c; S 10c; Blbts. 10-15c; 100-\$1.00

MISS WISCONSIN (460) Krueger '43 (90)

Considered the best introduction from this hybridizer. A beautiful rose pink in a weak color class. Opens 5" blooms. Rather slow propagation and the outstanding merits of this variety make it in great demand.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 30c

MODERN TIMES (560) Salman '48 (75)

Wine red with narrow yellow lines on lip. Very pleasing color. Makes a tall spike holding 7 open.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 25c

MOUNTAIN GEM (436) Requa '46 (80)

A pretty scarlet with a faint white picotee edge. Called an improved Algonquin as it is near its color and has better attached, rounder florets.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

MT. INDEX (401) Miller '42 (68)

A very early cream white with yellow throat. Tall spike, earliness, and color have created a big demand for this variety.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

MY DEAR (440) Sisson '48 (77)

A beautiful shell pink that opens 6 ruffled florets on stem of medium height. Good early cut flower due to its consistent performance and earliness.

L 75c; M 50c; S 25c; Blbts. 10-40c; 100-\$3.00

MYRNA FAY (466) Lines '46 (70)

Orchid lavender shading to light rosy blotch. Strong propagator. Promising early lavender commercial.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

NANCY (450) Arnett '49 (88)

The light red with the outstanding Trial Garden Record—with the highest average score in the four NEGS Test Gardens in 1947. Floret size 4½-5 inches, total buds 19, open florets 7, buds in color 5, days to bloom 88, height in field 56 inches. Excellent attachment, shipping toughness, perfect opening to tip after cutting, always straight. Good propagator and healthy. Nancy should prove to be one of the finest commercial reds.

L 15c; M 10c; S 4-15c; Blbts. 10-15c; 100-\$1.00

NEW YORK (562) Salman '49 (82)

Very deep carmine red with a slight rosy cast. Very strong grower with long flowerhead and many open florets. Very outstanding in Valleevue Test Garden in 1950.

L 30c; M 20c; S 10c; Blbts. 10-30c; 100-\$1.50

NORTHERN LIGHTS (400) Stinson '49 (78)

A beautifully ruffled white opening eight 5-inch florets of excellent substance on strong straight stem. An inconspicuous light purple line appears in the throat on the lip petals. Total of 18 to 20 buds on a 28-inch flowerhead. Excellent propagator. Northern Lights was exceptionally outstanding for us this past summer and we have had other good reports on its performance. Will be in big demand when better known.

L 40c; M 25c; S 15c; Blbts. 8-25c; 100-\$2.50

NOWETA ROSE (560) Fischer '50 (85)

Lavender rose that makes a sensational 12 open spike with rest of buds in color. Already has a creditable list of winnings including the Grand Champion honors.

L \$1.00; M 75c; S 50c; 2-25c; 10-\$1.00; 100-\$8.00

OCTOBER SUNSHINE (420) Quackenbush '47 (85)

A pleasing blend of orange to a golden yellow throat. Opens 7 or more florets on a medium height plant. Propagates well and opens from a tight bud when cut. Some misplacement. We are enthusiastic about this variety and think it is headed for the top.

L 20c; M 15c; S 10c; Blbts. 10-20c; 100-\$1.00

OKLAHOMA (386) Wilson '45 (90)

Beautiful lilac grey with creamy throat. Good propagator. Not too tall a grower but all admire it for its beautiful and unusual color.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 25c

ORANGE GOLD (422) Marshall '45 (80)

Clear rich beautiful orange gold. A basket of this is outstanding. Grows tall with 5 or 6 florets open on a rather short flowerhead. Excellent cutflower.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 25c

ORCHID BELLE (467) Lake '47 (77)

A very attractive light orchid rose with creamy white throat. Blooms early and is a good propagator. This looks like a dandy for the early cutflower grower.

L 75c; M 50c; S 25c; Blbts. 5-25c; 10-40c

PACTOLUS (417) K & M '47 (80)

Apricot-cream with vivid orange-red blotches on the lower petals. It opens 8 beautifully placed and ruffled blooms. A very spectacular showy blotched variety. To see it is to want it.

L 12c; M 2-15c; S 4-15c; Blbts. pkg. 25c

PANDORA (442) B. Palmer '40 (85)

Clear soft geranium pink with darker lines in throat. This variety has achieved an excellent reputation as a dependable cutflower pink. While not big it opens up to 8 blooms. If you are looking for a good pink be sure to try this one, we feel sure you will like it.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

PARADE (470) Klein '51 (70)

Cyclamen purple with magenta throat. Opens 7 or a medium height spike. A lively attractive color that does not burn in the sun. This blooms early and is an excellent propagator.

L \$2.00; M \$1.50; S \$1.00; Blbts. 2-30c; 10-\$1.20; 100-\$8.00

PARTHIENA (566) Hitchcock '49 (80)

A new shade of deep lavender, distinctive and very attractive, especially when used in arrangements. Opens 7 ruffled blooms on a spike of medium height. Excellent show record. Makes plenty of bulblets that germinate and grow well. Some question the attachment of the florets but apparently it is good enough to permit this variety to gain cutflower status.

L 25c; M 15c; S 2-15c; Blbts. 10-25c; 100-\$1.75

PASTEL (486) Both '42 (85)

Color a rosy gray with petals edged blue. A very pretty pastel colored smoky on a nice spike.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 25c

PATROL (416) Palmer '46 (77)

Clear lively apricot with yellow throat. Tall grower with good cutflower habits. It holds up to 10 open. Now has many grand champion awards to its credit. Highly recommended.

L 30c; M 20c; S 2-25c; Blbts. 10-25c; 100-\$1.50

PAUL RUBENS (470) Salman '47 (85)

Terry, our son, owns the stock of this variety. He saved his nickels and dimes to get his start. All bulb sales on this go to him. Paul Rubens is a rhodamine purple. The color is a duplicate of the old Anna Eberius. Clear pure color, vigorous grower and a fine variety.

L 12c; M 2-12c; S 6-15c; Blbts. pkg. 25c

PERDITA (313) Grout '48 (90)

Attractive golden yellow with scarlet throat darts. Opens up to 10 ruffled florets. Topnotch exhibition variety.

L 50c; M 35c; S 25c; Blbts. 10-30c; 100-\$2.00

PERSIAN BEAUTY (586) Knierim '48 (90)

Color is Persian lilac blending out to rose taupe with a silvery gray edge on all petals. This is a sport of R. B. It retains all the size of florets, vigor, and habits of R. B., and is identical in fact except for color. All those who like R. B. we feel sure will want this variety.

L 20c; M 15c; S 10c; Blbts. 10-20c; 100-\$1.50

PEGGY (366) West '46 (80)

Clear light lavender that opens 6 on a tall straight spike. This looks good to us as a cutflower.

L 20c; M 15c; S 10c; Blbts. 10-20c; 100-\$1.50

PENELOPE (466) Dean '48 (75)

A new shade of mauve or lavender with a white throat and slight peppering of mauve in the throat. A color the ladies will like and one useful to the florists.

L 40c; M 30c; S 20c; Blbts. 10-25c; 100-\$2.00

PERSIAN RUG (486) Roberts '50 (80)

A striking blend of oriental colors mostly plum and rose with a large creamy yellow throat. Opens 6 or more frilled florets. Admired by many who saw it bloom in our trial garden this past summer.

L \$1.50; M \$1.00; S 60c; Blbts. 2-20c; 10-75c; 100-\$6.00

PHANTOM BEAUTY (440) Bastian '47 (85)

Light pink with formal placement of 10 open. A fine show flower and should make a standard commercial pink.

L 12c; M 2-15c; S 5-15c; Blbts. 20-25c; 100-75c

PICARDY (530) Palmer '31 (90)

Standard salmon pink. Grown by the millions as a cutflower.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

POLYNESIE (432) K & M '49 (85)

Color salmon with a yellow throat and a small salmon blotch. Will open 8 or more 5 inch florets on a tall spike. Looks promising for both cutflower and exhibition use.

L \$1.00; M 75c; S 50c; Blbts. 10-80c; 100-\$6.00

PRES. TRUMAN (540) Salman '48 (90)

Light pink shading to lighter pink in throat. Produces a formal spike with 8 or more open florets. Very promising cutflower.

L 15c; M 10c; S 2-10c; Blbts. pkg. 30c

PURPLE SUPREME (470) Wilson '42 (85)

Very tall purple with light picotee edge. Somewhat like King Lear in color but with better floret attachment. Color flakes off in wet, damp weather.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

RAVEL (477) K & M '47 (77)

Medium blue with a reddish brown throat mark. Ravel appears to be a very healthy grower, good propagator and builds a nice spike. Recommended as the best in this color.

L 15c; M 10c; S 2-10c; Blbts. pkg. 30c

R. B. (590) Upton '40 (90)

Rusty brown on old rose base. Novel color. Can win in shows for largest floret.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

RED CHARM (452) Butt '39 (85)

A fine medium dark red with a deeper throat. A fine all around glad for show and cutflower use. Very consistent and tops in its color.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

RED CHERRY (436) Roberts '46 (70)

A medium cherry red with slightly darker throat. Opens 7 round florets on a tall spike. Rapid propagation, nice color and earliness promise to put it on top as an early commercial red.

L 15c; M 10c; S 3-15c; Blbts. 25-20c; 100-75c

RED WING (536) Wright '48 (85)

A vigorous-growing scarlet-red with a deeper scarlet blush on lower petals. Grows to 60 inches in height with a long flowerhead of 22 buds. Opens 8 or more 5½-inch slightly recurved and ruffled florets. Very promising exhibition and commercial variety. Considered by many as one of the best 1948 introductions.

L 50c; M 35c; S 25c; Blbts. 10-50c; 100-\$3.50

RHETT BUTLER (336) Kuhn '47 (68)

A bright flaming orange scarlet. Good grower and propagator. This is probably the earliest red to bloom and for that reason should be valuable to the early cutflower grower.

L 15c; M 10c; S 3-15c; Blbts. 25-20c; 100-75c

ROSE CHARM (360) Fischer '48 (65)

A lovely rose with cream throat blotch and mid-ribs. Makes up particularly nice in arrangements. Excellent propagator. Very valuable as an early cutflower.

L 12c; M 2-15c; S 4-25c; Blbts. 20-25c; 100-80c

ROYAL WINDSOR (550) Beaton '46 (80)

Bright spectrum red. Open 8 five-inch blooms on a medium tall spike. Heavy propagator.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

RUFFLED NIGHT (454) Rich '47 (70)

Opens 7-5 inch ruffled blooms with 7 buds in color. Color dark red with a sparkle and sheen. Not the largest dark red but certainly one of the most beautiful.

L 50c; M 40c; S 25c; Blbts. 10-40c; 100-\$3.00

SALMAN'S GLORY (507) Salman '47 (80)

It is the opinion of several experts that this is the best variety to come out of Holland since the war. A rich creamy white with a striking red blotch edged with deep primrose yellow. Excellent propagator and fine habits. Holds 6-8 open with 7-inch florets.

L 12c; 2-15c; S 5-15c; Blbts. pkg. 25c

SHERWOOD (470) Pruitt '48 (80)

A tall-growing purple that opens 7 ruffled recurved blooms. Might be called an improved King Lear.

L 25c; M 20c; S 2-25c; Blbts. 25-40c; 100-\$1.25

SIBONEY (566) Allen '48 (90)

A clear medium lavender self-blending a little deeper in the throat. Florets are heavily ruffled. Will open 8-6 inch to 7-inch florets on a long flowerhead. Produces lots of bulblets that germinate and grow well. Medium height, but foliage grows low and broad, permitting a low cut.

L 20c; M 15c; S 10c; Blbts. 10-20c; 100-\$1.00

SILVER WINGS (500) Ritsema '44 (88)

Another white sport of Picardy. It is somewhat whiter and more ruffled than Leading Lady. Many consider this equal to or better than Leading Lady.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

SKYLARK (523) Palmer '48 (80)

A very bright, vivid orange with a large throat of gold. Grows to 4 feet in height with 6 open. A bright striking color combination you will like.

L 25c; M 20c; S 15c; Blbts. 10-15c; 100-\$1.00

SKYWAY (540) Stevens '48 (75)

Introduced as a superior early light pink with white throat. A strong grower up to 60 inches with 7 open 5½-inch florets on a long flowerhead.

L 75c; M 50c; S 25c; Blbts. 3-30c; 10-75c

SNOW PRINCESS (400) Pfitzer '39 (75)

Large milky white with light cream throat. Regular performer, healthy, and rapid propagator. Considered the best commercial white in its price range.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

SPARKS (506) Glass '47 (95)

Pale yellow with striking feathers of carmine. Opens up to 8, 5½-inch florets on a tall spike. This looks good to us.

L 15c; M 10c; S 3-15c; Blbts. pkg. 25c

SPIC & SPAN (432) Carlson '46 (80)

Ruffled deep pink that has made heavy winnings on the show table. Excellent commercial possibilities. Opens 10 in double row on tall spike of 22 buds. Good propagator. Receiving uniformly good reports wherever grown.

L 12c; M 2-15c; S 4-15c; Blbts. pkg. 30c

SPINDRIFT (400) Chase '47 (90)

Beautiful ruffled creamy white. Will hold up to 8 open on a huge spike. Topnotch show glad.

L 12c; M 2-15c; S 4-15c; Blbts. pkg. 30c

SPOTLIGHT (413) Palmer '44 (80)

Clear medium deep yellow with small scarlet blotch. Heavy propagator and tall strong grower. Along with Leading Lady one of the most popular glads introduced in last few years. Highly recommended.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

SPUN GOLD (312) Palmer '47 (75)

A good deep, clear yellow. Early and may give Gold Dust competition as an early yellow when down in price. Looks like the cut spikes would open and keep better than Gold Dust.

L 12c; M 2-15c; S 4-15c; Blbts. pkg. 25c

STORMY WEATHER (480) Barrett '47 (82)

Beautiful lavender gray smoky. Called an improved Mother Machree. Will open 8 ruffled blooms on a spike 50 inches tall.

L 30c; M 20c; S 10c; Blbts. 10-30c; 100-\$1.50

STRALIA (416) Both '47 (80)

Ruffled florets of a buff and salmon blend. Runaway propagator. Promising commercial.

L 15c; M 10c; S 3-15c; Blbts. pkg. 30c

STRATHNAVER (500) Peattie '47 (84)

Tall, pure white which opens about 10 large, wide-open florets. Outstanding show variety. Rather slow propagator.

L 50c; M 35c; S 25c; Blbts. 4-20c; 10-40c

SUNDANCE (412) Almey '49 (82)

Ruffled medium yellow, opens 8 blooms on a 24 bud flower head. Many consider this as the best pure yellow. We think it could stand a longer handle. Certainly a cross combining the best qualities of Sundance and Gold would make a yellow that would be difficult to fault.

L 60c; M 40c; S 25c; Blbts. 3-20c; 10-50c

SUN SPOT (417) Roberts '45 (80)

A lovely combination of apricot buff with a rose spot in throat. Nicely ruffled and will hold 8 5½-inch florets open on a tall stem. Outstanding for cutflower and show purposes.

L 20c; M 2-25c; S 4-25c; Blbts. 25-25c; 100-75c

TARAWA (436) Palmer '46 (80)

A flashy scarlet with cream throat spears. Opens 8 ruffled florets. Fine exhibition and commercial glad.

L 15c; M 10c; S 3-15c; Blbts. pkg. 30c

TEXAS (500) Buchanan '47 (70)

An early waxy white with 5½ inch florets. Holds 6 open and grows to 50 inches tall. Should make a good early commercial.

L 15c; M 10c; S 3-15c; Blbts. 10-15c; 100-\$1.00

TITAN (532) Palmer '39 (85)

When well grown makes huge show spikes. Color salmon rose. An excellent late cutflower that now propagates better than previously.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

TIVOLI (460) K & M '47 (90)

A clear light rose color somewhat like Coryphee. Opens 8 on a tall straight spike. Outstanding.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 30c

TRAIL'S END (566) Ficht '49 (85)

Deep rose lavender with a creamy yellow throat. Opens up to 8-5½ inch florets on a tall spike. Looks good.

L 75c; M 50c; S 25c; Blbts. 10-25c; 100-\$2.00

TREASURE ISLAND (542) Lins '47 (90)

Large light orchid pink. Opens 5-5½ inch ruffled blooms on a long flowerhead and on a tall plant. Very promising commercial.

L 25c; M 20c; S 10c; Blbts. 15-25c; 100-\$1.50

TROCADERO (424) Lins '46 (87)

A self color of carrot salmon-orange. Exceptionally tall vigorous grower, and a good propagator. Opens 6-5 inch florets. Will be widely grown for cutflowers.

L 25c; M 20c; S 10c; Blbts. 10-25c; 100-\$2.00

TRUELOVE (440) Klein '45 (70)

An early clear shell pink. Lovely color and dependable habits promise much for the future of this variety.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 30c

TUNIA'S DELIGHT (522) Both '47 (80)

Beautiful color combination of orange with a blue margin around the edge of each petal. 8 open florets.

L 15c; M 10c; S 3-15c; Blbts. 10-15c; 100-\$1.00

TUNIA'S MAHOMET (586) Both '43 (75)

Deep velvety plum rose with orange scarlet in throat. Novel but beautiful smoky.

L 12c; M 2-15c; S 5-15c; Blbts. pkg. 30c

VAGABOND PRINCE (390) Palmer '34 (80)

Mahogany brown with a flame blotch. An old time favorite of many and one absent from our list for several years due to poor health. We are listing it now because we found a stock that appears to be relatively free from disease.

L 12c; M 2-15c; S 4-15c; Blbts. pkg. 25c

VICTORY QUEEN (430) Wilson '45 (95)

Beautiful salmon orange with cream throat. Clear color with no flecking. 6 ruffled blooms open on a tall plant. Looks like one of Wilson's best. This should be popular with the florists.

L 12c; M 2-12c; S 10-25c; Blbts. pkg. 30c

VULCAN (470) Stevens '42 (82)

Medium shade of purple. Opens 7 blooms on a tall spike. Good grower and propagator. Nice purple and one that the ladies especially admire.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

WAR PAINT (436) Kadel '47 (90)

Tall bright scarlet with 7 open 5 inch florets. Wonderful show flower and a fine commercial prospect.

L 30c; M 20c; S 10c; Blbts. 10-25c; 100-\$2.00

WEDGWOOD (366) Fischer '47 (80)

A color gem of waxy lavender with cream throat. Named for the delicacy and refinement of wedgwood pottery. Opens five gorgeous ruffled florets on a rather short stem.

L 15c; M 10c; S 3-15c; Blbts. 25-15c; 100-60c

WHITE CHALLENGE (501) Arnett '47 (90)

Large white with a pale rose blush and a rose blotch in the throat. Opens 8 on a 22 bud spike. Has won frequently on the show table. Fine commercial prospect.

L 30c; M 20c; S 10c; Blbts. 10-25c; 100-\$2.00

WHITE CHRISTMAS (500) Fischer '48 (85)

Heavily ruffled beautiful white with sometimes a very faint pink tone. While the florets sometimes misplace a good spike of this is "out of this world" for beauty of form, texture and ruffling. Excellent show record.

L 12c; M 2-15c; S 4-15c; Blbts. pkg. 25c

WHITE GODDESS (500) Roberts '48 (80)

Exhibition white with cream throat. Holds 8 attractive ruffled blooms open on a tall spike. Looks like the tallest and strongest growing ruffled white. Recommended.

L 20c; M 15c; S 10c; Blbts. 12-25c; 100-\$1.50

WHITE MAGIC (500) Kuhn '47 (80)

A heavily ruffled pure white. Opens 6 or 7 on a 50 inch spike. Topped all entries in 1946 Mich. Trial Garden.

L 35c; M 25c; S 15c; Blbts. 10-25c; 100-\$1.50

WHITE SYMPHONY (500) Webb '51 (85)

A beautiful crisp snow white that holds 8 or more ruffled blooms open on a long flowerhead. Grand champion at West Virginia 1950 show.

L \$1.50; M \$1.00; S 50c; Blbts. 3-40c; 10-\$1.25

WILMA DITTMAN (516) Maier '49 (85)

Pale buff shading to faint scarlet lines in throat. Looks like a good show and cutflower glad.

L 75c; M 50c; S 25c; Blbts. 10-40c; 100-\$2.50

WORLD BEATER (411) Pfitzer '49 (85)

A yellow like Spotlight with a slightly different shade of red in throat. World Beater will hold more open than Spotlight in double row placement.

L 15c; M 10c; S 3-15c; Blbts. pkg. 25c

YANGTZE (312) Harris '41 (80)

Deep yellow. Very popular in Canada where it rated 22nd in their '48 Symposium. Good grower and deserves wider distribution.

L 12c; M 2-12c; S 5-15c; Blbts. pkg. 25c

QUANTITY PRICES — NOT PREPAID

Prices indicated are per 100 F. O. B. Perry, Ohio. Twenty-five bulbs of the same size and variety will be sold at the 100 rate; 250 or more at 1,000 rate. For 1,000 rate multiply 100 rate by 8. Bulblets sold 1 pint at the quart rate, 1½ pint at quart rate when quart price is \$10.00 or more.

EVERGREENS

T means once transplanted, TT means twice transplanted

NORWAY SPRUCE (*Picea abies*)

An old favorite, hardy and rugged. Widely used for Christmas trees, windbreaks, mass plantings, erosion control, reforestation, landscape specimens. See below for seedling prices. *

4 yr. TT well branched 8-12" 45c each, 5-24 40c, 25 or more 35c

DOUGLAS FIR (*Pseudotsuga taxifolia*)

A large tree, rapid grower. Pyramidal shape, horizontal branches with drooping branchlets. Unexcelled as a windbreak, popular as Christmas trees, beautiful as specimen trees, and valuable as large sheared hedges. Any soil or exposure except poorly drained, wet soil. See below for seedling prices. *

4 yr. T 6-8" 35c each, 5-9 30c, 10 or more 25c

AUSTRIAN PINE (*Pinus nigra*)

Dark green, coarse needles. A rapid grower reaching 75-85 feet. Does well on poor soils, even in wet places. A fine specimen and shade tree, fine for windbreaks. Gives good results at lake front and seaside.

3 yr. T 6-10" 35c each, 5-9 30c, 10 or more 25c

PONDEROSA PINE (*Pinus ponderosa*)

Most notable as a drought resistant pine, recommended for shelter belts and windbreaks in the Great Plains. Also recommended for wet soils. A tall straight tree with pleasant dark green needles.

3 yr. seedling 6-12" 25c each, 5-9 22c, 10 or more 20c

SCOTCH PINE (*Pinus sylvestris*)

Bluish green needles, compact, one of the smaller pines, about 30-35 feet at maturity. Will endure poor, dry soils and adverse conditions. The best pine for city conditions. Used extensively for lawn trees, Christmas trees, smaller windbreaks, and in exposed lakefront plantings. See below for seedling prices. *

3 yr. T 6-10" 35c each, 5-9 30c, 10 or more 25c

JACK PINE (*Pinus banksiana*)

A very hardy species adaptable to coldest climates. Withstands sea-side conditions, is drought resistant. Fairly short needles, medium size (about 40-45'). Windbreaks, erosion control, Christmas trees. Listed below in seedling group. *

3 yr. T seedlings 6-12" 25c each, 5-9 22c, 10 or more 20c

HEMLOCK (*Tsuga canadensis*)

A short needled evergreen, graceful branches. Makes a magnificent pyramidal tree of 75 feet or more, or can be sheared to make one of the very best broad pyramidal landscape types 5 feet high or more. Superb for sheared hedges if given ample width at bottom. Grows in full shade and in full sun except in hot climates. Avoid dry soils and windswept locations.

3 yr. TT 6-9" 35c each, 5-24 30c, 25 or more 25c

4 yr. TT 9-12" 55c each, 5-24 45c, 25 or more 40c

Ohio customers please add 3% sales tax on evergreen orders
(strawberries are exempt)

EVERGREENS— continued

DWARF MUGHO PINE (*Pinus mugo mughus*)

Broad, bushy rounded growth. These are seed grown, hence will not exhibit identical habits. Maturity sizes from 4-8' high. Mugho pine needs some sun, good drainage, responds well to shearing.

3 yr. TT 2-4" 30c each, 5 or more 25c

4 yr. TTT 4-7" 50c each, 5 or more 45c

COLORADO BLUE SPRUCE (*Picea pungens glauca*)

Compact, slow growth, will eventually reach 30 feet. Highly adaptable to various landscape uses, command top prices as Christmas trees. Grown from seed, these plants will exhibit varying degrees of blueness.

4 yr. T 4-7" 35c each, 10-24 30c, 25 or more 25c

THE YEWS (*Taxus*)

Yews are hardy, grow in sun or shade, free from pests, and adaptable to shearing. Good drainage is their only requirement.

1 yr. T of all varieties below, 5-8" 45c each, 5-24 43c, 25 or more 40c

JAPANESE YEW (*Taxus cuspidata*)

Spreading, fairly rapid growth. Red berries in fall.

UPRIGHT JAPANESE YEW (*Taxus cuspidata capitata*)

Broad pyramid, eventually 15-20 feet high. Can be trimmed to narrow form.

INTERMEDIATE YEW (*Taxus cuspidata intermedia*)

Bushy rounded type, medium growth rate. Excellent for foundations.

BROWN YEW (*Taxus media browni*)

Excellent type. Normally broad upright form, can be trimmed to pyramidal or globe shape. Ideal for low sheared hedges.

HICKS YEW (*Taxus media hicksi*)

Well known upright type, red berries in fall.

KELSEY BERRYBUSH YEW (*Taxus media kelseyi*)

Broad bushy type, known as a good producer of berries.

ARBORVITAE (*Thuja*)

WOODWARD GLOBE ARBORVITAE (*Thuja occidentalis woodwardi*)

Widely accepted as the best dwarf globe arborvitae. Dark green color, dense growth, long-lived. Maximum 3-4 feet.

2 yr. TT 4-6" 50c each, 5-24 45c, 25 or more 40c

3 yr. TT 5-7" 75c each, 5-9 70c, 10 or more 65c

PYRAMIDAL ARBORVITAE (*Thuja occidentalis pyramidalis*)

Tall, quite narrow pyramid, 15 feet or more at maturity.

2 yr. TT 6-9" 50c each, 5-24 45c, 25 or more 40c

3 yr. TTT sheared 8-12" 85c each, 5-9 80c, 10 or more 75c

ORIENTAL ARBORVITAE (*Thuja orientalis*)

Compact, broad pyramid with vertically arranged foliage fronds, rapid grower. Useful particularly for windbreaks and tall screens. Offered here at bargain prices.

3 yr. T 6-10" 22c each, 5-24 20c, 25 or more 15c

4 yr. TT 10-15" 40c each, 5-24 35c, 25 or more 30c

JUNIPERS (*Juniperus*)

Hardy, adaptable to a wide range of soil conditions. Most Junipers require full sun for best results.

ANDORRA JUNIPER (*Juniperus horizontalis plumosa*)

Spreading type with upturned branches 24 inches high, 3-6 feet across. Deep green in summer, rich purple bronze in winter. Rock gardens, foundation plantings.

2 yr. TT 6-9" 60c each, 5-24 55c, 25 or more 50c

PFITZER JUNIPER (*Juniperus chinensis pfitzeriana*)

A fine old variety, bushy spreading type 3-4' high, 6-8' wide.

2 yr. TT 5-8" 55c each, 5-24 50c, 25 or more 45c

HETZ BLUE JUNIPER (*Juniperus glauca hetzi*)

A newer type, similar to Pfitzer except for lustrous silvery blue color and more rapid growth.

3 yr. TTT sturdy, branched 4-6" 95c each, 3-9 85c, 10 or more 75c

GLOBE REDCEDAR (*Juniperus virginiana globosa*)

Best of the globe junipers. Slow growing, eventually makes 4 foot globe, or shearing will retain 2 or 3 foot size.

Grafted plants, 1 yr. T 6-8" \$1.00 each, 5-9 90c, 10 or more 85c

KETELEER JUNIPER (*Juniperus chinensis keteleeri*)

An excellent columnar juniper. Compact, fairly rapid, one of the few junipers that will do well in partial shade.

Grafted plants, 1 yr. T 8-12" \$1.00 each, 5-9 90c, 10 or more 85c

MULTIFLORA ROSE (*Rosa multiflora*)

The "living fence." Becomes 6 feet high and 6 feet wide, so dense and thorny in 5 years that even razor back hogs cannot penetrate it. Abundant clusters of white flowers in late spring, red berries in winter. Plant 12-15" apart for fences. Requires sun, hardy in all but very coldest sections, not well adapted to exceptionally dry climates.

Seedlings, 1 yr.	10	25	50	100	250	500	1,000
5- 9"	\$.65	\$1.35	\$2.40	\$ 4.00	\$ 8.00	\$14.00	\$24.00
9-15"	1.00	2.25	4.00	6.75	13.50	23.50	40.00
15-24"	1.50	3.40	6.00	10.00	20.00	35.00	60.00

STRAWBERRIES

DORSET Early. Good early table variety.

PREMIER Early. Excellent commercial type, keeps well.

FAIRLAND Early Midseason. New. Disease resistant, heavy yields.

FAIRFAX Midseason. Dark red, recommended for freezing.

CATSKILL Midseason. Heavy yields. Good market variety to follow Premier.

ROBINSON Late. 10-15 days after early ones. One of the largest, tops for home use.

Prices for plants of one variety (50 of one kind and 50 of another do not go at the 100 rate) 25 for 95c, 50 for \$1.50, 100 for \$2.50, 250 for \$5.00, 500 for \$8.50, 1,000 for \$15.00.

STREAMLINER Everbearing. Said to be largest of all everbearers.

25 for \$1.75, 50 for \$3.00, 100 for \$5.00, 250 for \$10.00, 500 for \$18.00

SUPERFECTION Everbearing. New, has amazing yields.

25 for \$1.90, 50 for \$3.25, 100 for \$5.50, 250 for \$11.00, 500 for \$19.00

BROADLEAF EVERGREENS

ROSE DAPHNE (Garland Flower) (*Daphne cneorum*)

Low, spreading, about one foot high and 3 or more feet across at maturity. A cushion of fragrant rosy pink flower clusters in April or May with another blooming period in the fall. Needs good drainage, alkaline soil of low fertility, and sunshine (some shade in hotter climates.)

2 yr. T 3-5" (spread) 40c each, 10 or more 35c

5-7" (spread) 65c each, 5-24 60c, 25 or more 55c

CONVEXLEAF JAPANESE HOLLY (*Ilex crenata convexa*)

A good substitute for boxwood in colder climates. Rounded, compact, slow growing, 4-5 feet in time, usually wider than high. Can be sheared to any shape and maintained at 2-3 feet indefinitely. Small shiny cupped leaves. Specimen, foundation plantings, hedges.

2 yr. T 5-8" 45c each, 5-24 40c, 25 or more 35c

BALTIC ENGLISH IVY (*Hedera helix baltica*)

A hardier form of the well known English Ivy. Glossy dark green leaves. Vine or ground cover, should have shady location in cold climates. Usually does not climb well on new masonry.

3 yr. TT 10-15" 60c each, 5 or more 55c

JAPANESE SPURGE (*Pachysandra terminalis*)

A popular evergreen ground cover and border plant. Relatively large, light glossy green leaves are borne at uniform height throughout. Requires at least partial shade.

Rooted cuttings 20c each, 10 or more 15c

1 yr. T clumps 30c each, 10 or more 25c

AZALEAS, RHODODENDRONS

CHINESE AZALEA (*Azalea mollis*)

Hardy, easiest azalea to grow. Usually blooms for Memorial Day in this region, covering itself with large blossoms, shades of yellow, orange, salmon and flame red. Does not require highly acid soil, but prefers sunny location and good drainage. Usually matures at 3-4 feet. Mixed colors.

2 yr. T 3-6" 35c each, 5-9 33c, 10 or more 30c

3 yr. TT 5-9" 60c each, 5-9 55c, 10 or more 50c

TORCH AZALEA (*Azalea obtusum kaempferi*)

Faster growing than azalea mollis, will become 6 to 8 feet tall in time. Blooms a little earlier, about mid-May here, shades of pink and red. Profuse flower production. Evergreen in southern states, deciduous in colder climates. Requires well drained acid soil and partial shade for best results. Shady slopes make ideal locations. Mixed colors.

3 yr. TTT, strong, bushy 8-10" 85c each, 3-9 80c, 10 or more 70c

RHODODENDRON HYBRIDS

Grown from the seed of various named hybrid rhododendrons, these broadleaf aristocrats will vary in maturity size from about 4 to 8 feet and colors will range from white through pink and lavender to purple and red. Acid soil, sun or part shade. Perhaps some of these will be even more beautiful than the original named varieties. Mixed colors.

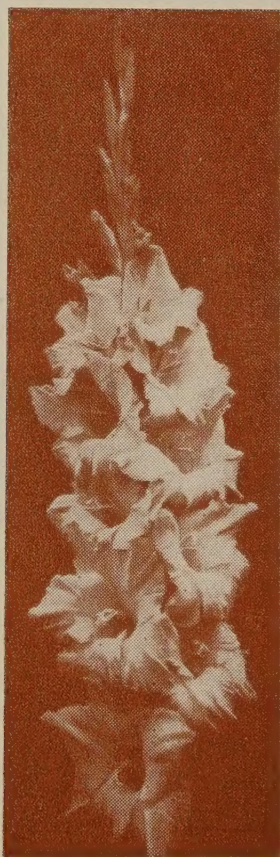

3 yr. TTT sturdy, branched 4-6" 95c each, 3-9 95c, 10 or more 75c

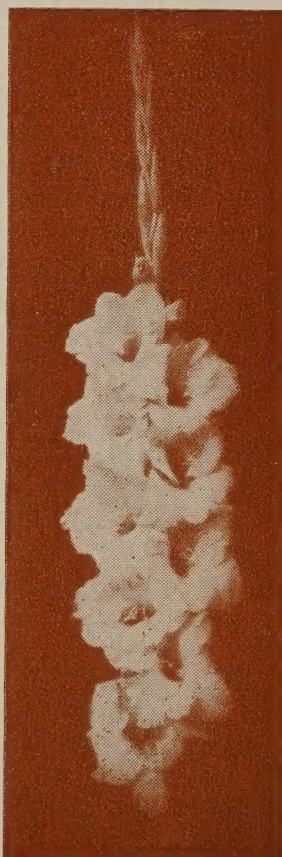

PACTOLUS

TIVOLI

BOISE BELLE

SUN SPOT

WHITE GODDESS
